MarginOS features by subscription tier — v18 FINAL

Approved by Akthar Uddin, 5 November 2026 at 14:18 Europe/Madrid. Marketing handoff; publish only claims supported by the built and tested product and after legal/name clearance.

> **Do not launch as MarginOS.** MarginOS and marginos.online are working identifiers. Candidate **MarginSeam** is pending trademark clearance and is not approved. All product strings must come from one `PRODUCT_NAME` config value; domain/email and brand assets are configurable for the approved post-clearance rebrand.

Approved plan lineup

Platforms	1 of 4	Up to 2 of 4	All 4	All 4
History	3 months	12 months	24 months	All history, fair use
Seats	1	1	2*	5*

* Operational workflows use the spec's recommended defaults behind config, not separate approvals. Scale aggregation default is account-wide.

Annual: pay for 10 months and receive 12; usage resets monthly. **Founding:** first 100 successfully paying accounts, 25% off monthly for 12 months; trial conversion counts only on successful charge. Standard pricing resumes after month 12 with 30 days' notice. Recommended default is monthly-only founding eligibility (Q26), not an approval.

Trial and cancellation wording

K38 approves the every-tier trial below. **K39** approves deletion at subscription access end. **K40** approves this FINAL handoff and non-blocking defaults.

Every tier: 14 days free. Card required. Cancel any time in Plan & billing before the displayed trial end to pay nothing. Unless cancelled, the selected monthly or annual price is charged automatically on day 15.

Pricing and Checkout must show trial length, exact post-trial price, exact first charge date and cancellation route before card submission. Trial uses the selected tier's features and order limit. Public sample report and signed-in sample shop remain available.

A reminder is required before trial end; recommended default is **3 days before**, configurable. One trial per account is required; one per card where Stripe permits is a recommended default. Successful conversion counts as first payment for the existing 14-day refund rule; legal must decide whether that refund window still applies after trial conversion. Do not publish refund wording before legal review.

Claims Marketing may use after build, QA, legal and name clearance

- “Find where your margin leaks and what each leak costs you.”
- “Try any plan free for 14 days. Card required. Cancel before the displayed trial end to pay nothing.”
- “Plans from £39 a month including VAT after your trial.”
- “A complete profit diagnosis on every plan.”
- “Upload Shopify, Amazon or Etsy CSVs, or TikTok Shop UK XLSX — Beta.”
- “Explore a public sample report and sample shop.”
- “Google sign-in, Show the maths, ranked fixes and CSV data export.”
- “Annual plans: pay for 10 months and get 12.”
- “PDF report included on Growth, Pro and Scale.”

Qualify platform availability by plan: Starter one slot, Growth up to two, Pro/Scale all four. TikTok is a platform choice, not an extra slot.

Required TikTok Beta wording

Use **“TikTok Shop UK — Beta”**, not “live sync”. Suggested wording:

> Built from TikTok's public UK statement documentation. We haven't verified every seller's file yet. If yours fails, send us the error and, if you're comfortable, the file so we can fix it.

Actual fees take priority. Otherwise UK commission preset is 9% including VAT, or 5% only with category evidence; creator/affiliate commission is separate. Estimates are labelled and confidence may be lower. Do not imply TikTok US/EU support, universal validated accuracy or automatic store syncing. No real file has yet been supplied.

Hard-limit wording

- “Orders count once per billing month; re-uploading the same orders doesn't use your allowance again.”
- “We'll warn you at 80% and name the next plan.”
- “If a file would take you over your limit, we won't import part of it. You'll see how many orders over you are and can upgrade.”
- “Upgrades take effect immediately with proration. Re-upload after upgrading.”
- “Existing results and exports remain while your trial/subscription is active or through the disclosed cancellation access end.”

Never say unlimited orders, no caps, soft limit or part-import. No surprise per-order charge.

Subscription deletion and data wording

- Paid cancellation: access/export to paid-period end; then all product/user data is permanently deleted.
- Trial cancellation: no charge; recommended default access/export to original trial end; then deletion.
- Cancellation screen and email state “Your data will be deleted on [date]” and prompt **Download my data**.
- Final failed payment or immediate first-payment refund ends access and triggers deletion. No 12-month lapsed retention, 60/30-day warnings or old-data restore.
- Login may remain for fresh resubscription; old orders/results/settings do not return. Minimal login and legally required billing/tax records follow separately disclosed retention.
- Backups/replicas clear within 7 days. Account closure is a separate verified email route completed within 7 days and removes login too.
- App/database/backups: DigitalOcean London. Transactional email: Amazon SES EU (Stockholm), K36. Privacy/DPA/subprocessors must match.

Messages to retire

Remove permanent Free-plan offers, **no-free-trial** statements, 24-hour deletion/countdowns, three-upload counters, locked/blurred diagnosis, lifetime sales slogans/counters, dark-mode toggle, header PDF icon, Delete account controls, 12-month retention/restoration claims and TikTok “coming soon”.

Open items Marketing must not invent

Name/MarginSeam clearance; non-GBP prices; seat/shop workflows and Scale aggregation; upload/dataset caps; annual founding treatment; legacy feature mapping; downgrade/history; passwordless sign-in; legal/tax and refund-after-trial wording; TikTok support-fixture/Beta-exit evidence. The FINAL spec front table defines recommended build defaults; none is a separate approval or public claim.

Internal only: estimated net per standard UK monthly payment is £30.08 / £61.13 / £99.94 / £154.28 after assumed VAT and Stripe fees; not public claims or guaranteed margins.
